POST PRINTING
LOW MINIMUMS – QUICK TURNAROUND

HOT STAMPING – OUR MOST POPULAR IMPRINTING PROCESS!

For a metallic image, hot stamping is the best option. A plate is created, then through heat and pressure, the foil is transferred to the surface of the product. We offer a wide range of foil colors including metallic, matte and gloss. See the color selection on page 8. Customize your packaging for $.18 per bag/$.13 per box or merchandise bag.

INK PRINTING

Fast and economical, ink printing is a process through which ink is transferred from a flexible plate to a product's surface. Ink printing is best for 1- or 2-color designs when tight registration is less critical. It's ideal for printing uncoated boxes and bags allowing for better ink absorption. See the color selection on page 8. Promote your brand for $.13 per bag/$.08 per box or merchandise bag.

SILK SCREEN PRINTING

Ink is transferred to a product through a fine screen. This method is very precise and is ideal for non-woven bags or when multiple colors are needed and registration is critical. It's also a great choice when you have specific PMS colors to match. See the color selection on page 9. Customize your packaging for $.49 per bag.

TERMS AND CONDITIONS

All Prices are FOB Mill.

If special shipment services, such as inside delivery, residential delivery, lift-gate, re-delivery, or COD are required, those charges will be invoiced at the carrier's current rate. Additionally, if these services are not noted on your P.O., we cannot provide advance notification and the charges may be invoiced separately when the carrier's invoice is received. Please ensure that consignee phone numbers are provided to prevent any delays in your shipments.

GIFT WRAP CUSTOM PRINTING

MINIMUMS – There is a minimum of 25 full reams for 1-color prints or solid tinted gift wrap. The minimum is 50 reams for two or more colors (based on a minimum print width of 24"). For widths less than 24", double the minimum as these widths are printed 2-up from a wider width. Please note that custom orders are subject to under/over runs up to 15%.

TYPES OF PAPER – Shamrock stocks several printing grades of paper. Our stock papers include: 40# Natural Kraft, 50# C2S, 60# C2S, 53# Metallized, 45# Laminated Foil, and 54# Holographic.

COLORS – All our inks are water-based. We can match PMS colors for custom printed designs, as well as color swatches of samples supplied to us. Ink draw-downs will be sent for approval prior to printing. Gloss or matte varnish, as well as silk sheen and UV, can be applied.

RECOLORATIONS – Custom gift wrap may be created by recoloring a stock design, thus avoiding the cost of custom engraving cylinders. Only line designs can be recolored; multi-color process designs cannot be recolored. The custom print minimum for recoloration is 25 reams for 1-color and 50 reams for two or more colors.

ART REQUIREMENTS – We can accept artwork in many forms, but prefer high resolution digital files. Our engravers can use the software listed below as well as others. Please inquire should you have questions about a specific type.

- Digital Files – Adobe Photoshop (EPS or TIFF) format for process designs, Adobe Illustrator format for line designs. All digital files must be in high resolution, and a composite print of the design should be included to show layout and web direction.
- Pattern Repeats – Gravure printing cylinders are 24" in circumference; art may be sized to repeat vertically in any even denomination of 24" (1", 2", 3", 4", 6", 8", 12" or 24").

DELIVERY – Custom printing is our specialty. You can expect a quick turnaround once the art is approved.

Shamrock is the premier printer and converter of custom gift wrap. Photographic quality is achieved through the roto-gravure printing process. 8, 6 and 5-color high speed presses provide maximum efficiency and cost effectiveness and have the ability to apply specialty finishes including UV, gloss and matte varnishes. Let us help make your custom gift wrap ideas a reality. Ask for samples and quotes.

- Efficient, High-quality Roto-Gravure Printing
- Creative Support
- Produced in USA – short lead times and easy inventory control

CUSTOM CONVERTING

CUSTOM SMALL ROLLS – Various widths of gift wrap can be converted to small rolls. The minimum length is 5' and the maximum width is 30". Rolls are shrink-wrapped or banded, wound coreless or on sheet stiffener cores and custom labeled. Minimum small roll converting quantity is 5,000 linear feet.

SLITTING – Stock counter rolls (417' or 833') and custom printed rolls can be slit to desired widths. There is a $20.00 charge per cut for any stock counter roll. All finished rolls are shipped in the original carton. There is no per roll minimum.

CUSTOMIZED KITS AND ENSEMBLES – Gift wrap and various retail packaging products can be assembled into kits. Tell us your requirements and specifications, and we will gladly suggest options and provide quotes.

CUSTOMIZE YOUR PACKAGING!

Put your packaging to work for you. Custom-printed bags and boxes reinforce your brand and its value to consumers. Plus, they provide ongoing exposure to both potential and loyal customers in your community. We offer a complete line of paper shoppers, plastic bags, and boxes that can be imprinted. Plates and screens are stored for reorders for 3 years.

POST PRINTING
LOW MINIMUMS – QUICK TURNAROUND

HOT STAMPING

For a metallic image, hot stamping is the best option. A plate is created then, through heat and pressure, the foil is transferred to the surface of the product. We offer a wide range of foil colors including metallic, matte and gloss.

See the color selection on page 8.

INK PRINTING

Fast and economical, ink printing is a process through which ink is transferred from a flexible plate to a product's surface. Ink printing is best for 1- or 2-color designs when tight registration is less critical. It's ideal for printing uncoated boxes and bags which allow for better ink absorption.

See the color selection on page 8.

SILK SCREEN PRINTING

Ink is transferred to a product through a fine screen. This method is very precise and is ideal when multiple colors are needed and registration is critical. It's also a great choice when you have specific PMS colors to match.

See the color selection on page 9.

HOT STAMP, INK PRINT & SILK SCREEN ORDERING INFORMATION

MINIMUM ORDER – The minimum order is one case.

PRICING – Printing, plate charges and freight are in addition to the product cost.

QUANTITY PRICING – Products (paper bags, plastic bags, boxes) may be combined for the minimum printing charge as long as the same plate and same color are used. Orders requiring a different plate size or a different color cannot be combined to meet the minimum printing charge.

An order involving two plates for two different product sizes constitutes two separate jobs. Each job will be priced separately to determine printing charges.

Orders for combined products (bags & boxes) will be priced at the higher minimum printing price.
Example: 500 shopping bags and 500 boxes will both be priced at the higher minimum if combined.

LEAD TIME – Imprinting is our specialty. You can expect a quick turnaround once the art is approved.

UNDER RUN – Orders are subject to a 5% under run; the full order quantity will be invoiced.

CUSTOM COLORS – There is a $75.00 charge per color.

PROOFS – A proof will be provided for final approval. A press proof is available for a charge of $50.00.

ARTWORK – Print-ready artwork is required; otherwise additional art charges may apply. Faxes are not acceptable for reproduction. Artwork must be submitted with fonts or outline type. All non-standard fonts must be supplied. Artwork must be submitted in a vector graphics format using Adobe Illustrator.

ART PREP – $50.00 flat fee charged for basic art preparation and copy changes when supplied art is not print-ready.

ART DEVELOPMENT – $100.00 per hour with a 1 hour minimum for developing art for post printing. This includes: creating logos or art from concept, changing low resolution files to vector files, finding specific fonts when not identified or supplied by customer, changing multi-color art to single color and other more complicated art requests.

ART DEVELOPMENT REQUESTS – Submit art and art development requests to artwork@shamrock1.com. You will receive a quote for approval to proceed. Art charges will be invoiced along with job cost.

NOTE:

- Maximum print area information is located on the appropriate product pages.
- Eurototes, frosted shopping bags, and gloss coated bags cannot be ink printed. Products with ultra gloss coating cannot be hot stamped.
- Hot stamped designs that include continuous borders do not print well.
- Fine lines and large prints with reverse-outs do not print well and art may need to be modified.
- Halftones or screens cannot be hot stamped, ink printed or silk screened.
- Active plates will be placed in inactive status after 2 years and destroyed after 3 years.
